

# EXECUTIVE SPANISH PROGRAM

Our Executive Spanish Program is designed for individuals who need to develop or refine their Spanish language skills. It begins with a comprehensive language evaluation to establish strengths, weaknesses and specific needs. Based on this evaluation, an appropriate study program is custom developed for each of our students.

Our Executive Spanish Program focuses on practical communication skills: **speaking, listening, writing and reading comprehension**, with significant emphasis placed on language production. These skills are developed based on the individual interests and objectives each student, taking different learning styles and personalities into account. Multiple resources and materials are used to foster Spanish language development, including textbooks, newspaper and magazine articles, audio and video materials, cards and work sheets. The textbooks that we use in our classes include, among others:

- Pasos Spanish Coursebook
- Español del Mundo
- Practice Makes Perfect

Our Executive Spanish Program fully integrates the sociocultural background of Ecuador and the Hispanic world, giving students a comprehensive understanding of living and doing business in Ecuador and Latin America.

Students in our Executive Spanish Program enjoy the **following benefits:**
